In the House.

There was a reminder of the scenes and experiences in the flat Congress to-day, when Mr. Pickler, unable yesterday to secure as long a session as he desired for the consideration of private possion billing and the role.

desired for the consideration of private possion bills, made the point of no querum before the journal of yesterday's proceedings was read. Filteen minutes passed before 178 members appeared and then Mr. Pickler insisted upon having the names of absences at roll call.

He objected to the pro forms suggestion that the journal read in extenso, including the manes of absences at roll call.

He objected to the pro forms suggestion that the journal before and requiring a vote upon the question. Throughout the session Mr. Pickler I'r demanded the regular order at every opportunity, thailly explaining he was moved thereto by the hope that the House would thus flid time to consider private pension bills.

Mr. Pickler's attention to the fact that his action only tehded to defeat his expressed purpose, as those bills could be taken up only thy unanimous consent.

This Mr. Pickler interpreted that unanimous consent would not be given and remarked that he "accepted the service."

The incident there stopped.

After transacting some unimportant business the House sejourned.

H. Mitchell of the rallway mail service, is pushing the matter of the proposed postal clerk's bill, and much interest is felt in the matter locally. It will probabiy be brought to the attention of Speaker Reed to secure his aid. This bill is to provide for a reclassification of the postal clerks. There appears to be a need of some radical changes. As it is now the postal clerks are the poorest paid and hardest worked employes of the government.

Man and Wife.

(From the Boston Globe )

The following letter tells a plain, straightforward story in which every man and woman is interested. Hundreds of just such letters have lately been sent to publishers by grateful people, whose hopeless hvcs have suddenly been brightened by the wonderful discovery of Prof Dixi Crosby, of Dartmouth College. No wonder that men like Eugene Low pronounce Puritana "As great a discovery is electricity"

3 Mt. Vernon Place, Charlestown, To the public.

We know the misery that is caused by stomach troubles, for both my wife and I have been so afflicted with suffering of the worst sort that there seemed no longer any hope of health or even comfort. In fact, my wife's life was despaired of, and I was about to give up active employment.

Mrs. Cale was for a number of years a victim of dyspepsia, which grew more and more severe until she was completely prostrated. She was sent into the country by her doctor, but when she retuired she could not stand up without support. For a long time she was unable to eat solid food, and even on a diet of prepared milk she was unoble to gain strength or escape suffering. We sought the best advice we could obtain, b t the result was failure in every case.

When we first tried Puritana we were without other hope and as far as my wife was concerned, I did not believe that she would ever recover. After a few weeks there was a maried change and from that time on her improvement grew more rapid from day to day. The stomach trouble disappeared and her whole system was brought into a healthy condition.

Mrs. Cale belongs to the Daughters of sbekan and other Charlestevn secreties, and when she could attera the rectings, nd also eat her have of the dainties, it was a great su prise to the ladies who and known of her infarmity. For the first ine in years she found that she could eat piece of New England pic, and now her tomach digests any food

My own suffering has been so great that could not ongage in any exhausting occupation. The effect of Furitana in my case is been only less worderful than in the hase of my wife. I have received greater senefits from it than from all other medilines and the doctors put together, and ecommend it in the highest terms is my friends.

We bless the d / then we lesia of Puritana, for it | giv its new life

Androsooggin,

A timid woman in Lewiston who has jead to her horror of burgins about town, has had a patent attuchment put outo the gate that whenever the gate is opened rings a bell in her bedroom. The other evening she was in the roduce and all at once the bell jungled out its warning voice and she lumediately sank in a heap on the bed; each separate hair to mer head raleing itself in the air it rang and rang, and every instant she trembled more and whiter grea. Everthing she had ever rend of sudden deaths and midnight struggles came into her mind. She crept to the front of the house and halled the first passerby, who investigated the cause of that furious plarm. They found the family cat wedged in between the shats of the fence, and her furious struggles had summoned her liberators, while nearly scaring the life out of her miskese.

Miss Snow's Address. Superintendent of Schools Mary S. Snow, of Bangor, addressed the members of the Y. W. C. A., of Portland, this week, and the Portland Express had the following concerning the occasion: following concerning the occasion:

The Young Women's Christian Association rooms were crowded to the doors last evening with members, to hear Miss Mary S. Snow, superintendent of schools in Bangor, who gave at talk before the industrial and educational classes of the Y. W. C. A. on general educational tolerance of the transfer of the control of the

industrial and educational classes of the ty. W. C. A. on general educational topics.

Miss Culver, general secretary of the association, in well chosen words their introduced Miss Snow.

Miss Snow spoke rapidly and without noter. Every thought was rich with ideas which each listoper could carry away and which would jurnish food for reflection for some timeric come.

The glat of her remarks was to urge upon all the necessity of naving a high ideal in life and to strive always upward and onward for that goal. Life brings to each its task; do that no matter what it may be, the best you can and as you thus master the work you are about, other places will be opened to you. God needs us at our best. No matter how mental our work may seem to us, if we put our best into it we have placed one more round in our ladder of life.

She spoke strongly of the advantages of the study of nature and advised all, whose work in other classes was ful-hed to join; the botany classes, and thus bring themselves in touch with nature which now is so full of life.

Miss Snow is a woman of strong personality and the association is to be congratulated on having secured for a speaker such an earnest and cultured woman.

Sousa's Band. The "March King" and life incompare ble organization of musicians and accompanying sololats again celighted Bangor people by appearing at the Opera House last evening in concert before a large, representative and enthusiasic audience which for nearly two and one-half hours paid rapt attention to the superb music

of Sousa's brilliant performers.

The hearty appreciation of the audience was evidenced in the numerous encores and double encores, which neces sitated an almost double programme: but Mr. Sousa is a most obliging conductor and willingly responds to the calls for more—a characteristic which always adds to the popularity of him-self and his musicions. Decision in the Equity Case In the equity sult, Lawry vs Lawry, tried and reported yesterday, at the con-clusion of the arguments of counsel, the presiding justice rendered the following

Now without giving reasons, I find the following facts In the Spring of 1894 or early summer, Stillman Lawry, the complainant, was in some trouble of mind over what might result from ne-cusations of improper conduct with a woman le had been arrested on a charge of rape and sandry suggestions had been made to him of what might be the result of that transaction and other possible transactions

Having occasion about that time to buy the piece of lund of his sister he un-der the advice of his brother-in-law, haying paid for the land with his own moncy, had the deed made to his brother Fred and also under similar advice he had a deed made of his own lot to his brother Fred While he did this in the pleasing quality which she used to ex. fear of what might result if he left his property open from the e prosecutions, I do not think that he had the intent at that time to defraud any contractual ereditor or that by this means he was hindering any creditor. I find that for the time being he was spmewhat demoral-ized and easily influenced by cautious friends and did this thing without any notual intent to defrand a creditor but by finest of trombone artists and his solo reason of advice as being a desirable work last evening was superb. He was thing to do in view of possible criminal prosecutions

I find that the deeds never were delivered. They were token by Stillman Lawry to the Registry of Deeds without being shown to Fred and recorded. He German Knock-a-bout Comedy," Kelly Jawry had become informed of this and St Clair, delineators of black face transaction and of the purpose of it that comedy and challenge soft shoe buck be acquiesced in it, being on friendly and wing dancers, Leo and Chapman in terms with his brother, and gave his a new and original rural gymnastic brother to understand that they would reconvey to him or his order whenever it was thought desirable, that after that, baying beer applied to for a reconveyance, he declined upon the ground that he had been advised that he doubt hold it as a matter of law.

City Council was held Thursday Evening

The monthly session of the Brewer City Council was held Thursday ovening and the following business was transpendent tively refused to convey and declared he would not edivery. It appears, however, transpendent to the scale in and about the stream Neutrinous formations are to be seen in and about the stream Neutrinous formations.

City Council was held Thursday Evening

The monthly session of the Brewer cycles and demand was unide upon Mr. Fred Lawry for a deed and be then possible and the following business was transpendent to convey and declared he would not edivery. It appears, however, the mill the roots of a lug-fillen transpendent to convey and declared he would not edivery. The convergence of the convergence and I find that Mr Stillman Lawry through Mr. Huynes his uttorney, brought an action at law primarily to ecover the value of these two lots of land, that for some reason or other Mr.

Fred Lawry did not answer to the suit in court and was defaulted.

I further find that both the defend ants, Hill, are not innocent purchasers for value without notice, that the more gage of George F Hill was made to secure a pre-x sting debi-idditional security for a prior debt of Fred il li, of which he aiready had security to wit, the mortgage on the Lawry place

Now upon these findings of fact I am going to make this general order of wha would reem to me to be a substantial equity. I do not say a strictly legal equity, but a substantial equity. It Mr Stillman J. Lawry the com-plainant will at once file a petition to

this court asking leave by virtue of this order to bring forward that action at law of his against Fred Lawry, surrender the execution and have the action en-tered neither party, bushing that away, then I will make a decree that these respondents shall release to Mr. Stillman Lawry all this land with a bill of costs and they will transfer this land back to Stiliman Lawry and then if these two brothers thick they live any rights against each other, they can light it out.
